Get the Best in Clothing

IT IS NO LONGER a task to sell good clothing—to induce a man to buy a good garment in preference to a cheap one. Men have learned that the best is always cheapest, and that especially is this true of clothing. Good clothes show it in their looks. They wear well, too, which is what you want in clothing, and have the proper style, fit and hang right and give you the air of prosperity. The efforts of the manufacturers, therefore, are to make GOOD CLOTHES and to sell them at a price within the reach of the ordinary man. They have done it and the result is that good clothing is more in evidence than than ever before. Weille clothing is the result of years of study along these lines and today we are selling as good clothing as you find coming from the best tailors, at 30 to 50 per cent less. The men have found this out and today we are selling more clothing than ever before. We sell you a good suit for \$7.00 to \$12.50. We sell you the best suit for \$15.00 to \$25.00.

GOV. DAVIS DEFIES

Open Rupture Between Him and the Legislature.

Hot Times Are Expected in Arkansas As a Result.

IGNORES PASSAGE OVER VETO

Little Rock, Ark., April 17—The threatened open rupture between Gov. Jeff Davis and the legislature, which has been brewing for the past two months, assumed definite shape yesterday afternoon, when Gov. Davis formally threw down the challenge. When the senate convened yesterday Senator O. N. Killough of Cross called up the state capitol bill, which was passed over the governor's veto by the house yesterday. Senator Killough asked the senate to follow the example of the house and pass the bill over the governor's objection. The roll was called and the bill was passed—aye 24, nays 8.

A motion to reconsider was promptly laid on the table. This settles the state capitol question for all time to come.

At 3 o'clock in the afternoon Senator Simpson and Representative Rodman repaired to the governor's office and notified the governor of the action of the legislature in passing the capitol bill over his veto, and in compliance with the law tendered the enrolled copy of the bill to the governor. Gov. Davis refused to accept the bill and told the committee that he did not propose to have anything to do with it. The committee then went

to the office of the secretary of state and placed the bill in possession of Secretary Crockett and notified the senate and house of the treatment accorded them by Gov. Davis. The journal clerks of both houses were instructed to record the matter in the journal.

To add insult to injury Gov. Davis this afternoon filed with the secretary of state a communication stating that he had selected the following gentlemen to serve as members of the state capitol commission: Thos. L. Cox of Little Rock, Ham Brawley of Cabot, J. W. Story of Harrison, Hugh Corey of Texarkana, Chas. Williams of Newport.

The bill passed by the legislature takes the power of appointment of the commissioners out of the hands of the governor and places it with the general assembly. This was one of the reasons Gov. Davis assigned for vetoing the bill.

In naming the commissioners Gov. Davis has openly defied the legislature.

OURS ARE THE BEST

American Working Men Accorded High Praise

English Investigating Committee Has Prepared an Exhaustive Report.

SO-CALLED TRUSTS COMMENDED

London, April 17—An advance copy of the report embodying the result of the observations of the members of the Moseley commission, which studied industrial methods in the United States last autumn has been secured. The commissioners, excepting Moseley, almost unanimously agree that the British workman is a better workman than the American, but the American employer is a better employer than the British. The commissioners assert if the English employers adopted the methods of the American employers the marked superiority of the English over the American workmen would enable Great Britain to produce work as cheaply as the United States, despite the superiority of the latter's natural resources.

All the commissioners comment on the fact that they found few American workmen addicted to drink or betting on races, habits which are the curse of the English workman. The commissioners deny the charge that American employers cast out old workmen. They say they found as many old men working at trades in the United States as in England, while the policy of employers, unlike that here, seemed to be to promote men as age and experience increased their val-

ue. President Moseley declared the American workman is better educated, better housed, better fed, better clothed and more energetic than his British brother, and infinitely more sober. As a natural consequence he is more capable of using his brains as well as his hands. One of the principal reasons why the American workman is better than the Britisher is that he has received a sounder and better education, whereby he is better fitted for the struggles of life. Moseley commends the eagerness of American employers to adopt the latest machinery, and the nations' encouragement thereof, and declares that the British manufacturers, if they are to obtain the best efforts of workmen, must come to an agreement with the union for fair wages from which there will be no cutting.

Moseley asserts that the true solution of the problem of capital and labor is profit sharing. The fact which impressed the commissioners most was the close bond of sympathy between employer and employees in the United States, resulting in every employee working for his employer's interest because it improved his chances of earning larger wages.

Moseley commends the trusts because large organizations with ample capital are best able to compete on the most economical lines. They can fearlessly raise wages within given limits, and are in a position to combat unhealthy competition, and can better study the well being and comfort of the workman than small individual manufacturers struggling against insufficient capital and antiquated machinery. Moseley approves the combinations of capital and the thorough organization of workmen, because it is better for the manufacturer to deal with well organized labor than with a heterogeneous mass of workers pulling in different directions.

MANAGER JACKSON RETURNS

Manager Sam Jackson of the local baseball association returned from Hopkinsville this morning after attending a meeting of managers representing every city in the Kentucky, Illinois and Tennessee baseball league. The first thing done by the committee was the arrangement of a forfeit to insure all cities playing the season through. This forfeit was not given out to the press officially, but it is understood that it is in the neighborhood of \$500. The money will be deposited in the leading bank of each city and will be turned over to the other members of the league in case any city falls out within the limit of the season.

The committee was unable to arrange a schedule and will have to ask outside help. A prize of \$25 will be paid to the person who gets up the best schedule, one that will be voted the best by the entire league association. The members of the association did not have time to arrange the schedule and will solicit the work of any person who can arrange a successful one.

Tom Clifford of St. Louis arrived in the city last night from St. Louis and this morning went out with the remainder of the team to practice. The entire team was out today on the field working hard. Manager Jackson has notified them that they will be taken out within a week or so to play independent ball and will return here before the opening of the league. MACEDONIAN UPRISING.

GREAT FEAR OF IT IN CONSTANTINOPLE.

Constantinople, April 17—It is now understood that the commission sent by the sultan to appease the Albanians failed to secure their adhesion to the reform scheme of the powers, except on the condition that the Albanians be allowed to choose their own governors and civil officials and that other minor concessions be granted them.

The Porte has decided to establish a military camp at Berlozvitoh, and has ordered nineteen battalions to concentrate there, in view of possible eventual operations against the Albanians.

Greet uneasiness has been aroused in Turkish government circles by the reports that the Bulgarians in Macedonia are preparing for a general rising April 20, the second day of the Easter festivities of the Orthodox church.

LIVELY CHASE

BUT THE FUGITIVE PROVED TO BE THE WRONG ONE.

Officer Aaron Hurley had a lively chase yesterday near the Illinois Central passenger depot after a negro supposed to be Henry Donald, the negro who shot and killed another teamster in the Burnett stable on Madison street between Fourth and Fifth several months ago.

The negro, it seems, had been arousing suspicion by hiding in a cistern box in that neighborhood. He managed to escape from the officer, but his partner was caught and taken to the city hall. He said the man was not Donald, but a Clarksville negro. The fugitive, he declared, ran because he escaped from the chain gang at Clarksville and did not want to be caught.

BAPTIST SEMINARY

Move on Foot to Move it to Atlanta.

It is a Valuable Property and Endowment May Reach a Million.

A plan is on foot to move the Southern Baptist Theological Seminary of Louisville to Atlanta, Ga.

At a Baptist ministers' conference, held in that city last Tuesday, the first suggestion was made towards moving the seminary, and a proposition will be made to the Baptist convention, which meets in Savannah next May, carrying with it the pledge of an endowment of \$1,000,000 upon the guarantee of its removal to Atlanta.

At the ministers' meeting in that city D. O. Dougherty, a deacon of the First Baptist church of Atlanta, replied to a call made by the Rev. Dr. E. Y. Mullins, president of the seminary, for funds to increase the endowment of the institution. Mr. Dougherty suggested that it would be wise for the seminary to be transferred to Atlanta. He said that with proper guarantee of its removal he felt assured in making the statement that Atlanta citizens would gladly and readily pledge \$1,000,000 for an endowment fund.

The property of the Southern Baptist Theological Seminary in Louisville is valued at \$800,000, and it is one of the most important educational factors in the state. Louisville gave \$200,000 to secure the seminary, and Kentucky Baptists have made many liberal donations since then. There is no question that there would be a bitter struggle before the seminary could be moved.

The property includes four large buildings on Broadway between Fourth and Fifth avenues. The building in which the various class rooms are situated is valued at \$80,000; Norton hall is valued at \$60,000; library building at \$50,000, and gymnasium at \$10,000. The school brings from 250 to 500 students to this city every year.

The seminary was moved to Louisville in 1877, coming from Greenville, S. C. Since that time it has grown steadily, until it is now the largest Baptist Theological Seminary in the world.

Mr. Hughes was 55 years of age and unmarried. He was in bad health and at one time was confined in an asylum for lunacy.

BEAUTY AND STRENGTH

Are desirable. You are strong and vigorous, when your blood is pure. Many—men, most—women, fail to properly digest their food, and so become pale, sallow, thin and weak, while the brightness, freshness and beauty of the skin and complexion depart. Remedy this unpleasant evil by eating nourishing food and taking a small dose of Herbine after each meal to digest what you have eaten. 50c at DuBois Kolb & Co.

MORE WARRANTS

HERBINE CURES

Fever and ague. A dose will usually stop a chill, a continuance, always cures. Mrs. Wm. M. Stroud, Midlothian, Texas, May 31, writes: "We have used Herbine in our family for eight years, and found it the best medicine we have ever used, for la grippe, bilious fever, and malaria." 50c at DuBois, Kolb & Co.

I was much afflicted with sciatica, writes Ed C. Nud, Iowa, Sedgewick Co., Kan., "going about on crutches and suffering a deal of pain. I was induced to try Ballard's Snow Liniment, which relieved me, I used three 50c bottles. It is the greatest liniment I ever used; have recommended it to a number of persons, all express themselves as being benefited by it. CANCEROUS ULCERS

ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to give it a fair trial, and it is remarkable what a wonderful effect it had from the beginning; the sore began to heal and after taking a few bottles disappeared entirely. This was two years ago; there are still no signs of the Cancer, and my general health continues good. Mrs. R. STIERE, Wyandona, Mo.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years, is beginning to assert itself, and breaks out and becomes a bad ulcer and perhaps the beginning of Cancer. These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. If you have an old sore or ulcer, write us all about it, and medical advice or any information you may desire will be given by our physicians without charge. THE SWIFT SPECIFIC CO., ATLANTA, GA.

The request has been made of the navy department, and it is the intention to make a naval recruiting station of the boat during the World's Fair.

While here about 10,000 people went aboard her. A banquet was given Capt. Vreeland and the officers of the boat at the Acme hotel. Speeches were made by Mayor Covert, Charles Denby, former minister to China, Congressman James A. Hemenway, Capt. Vreeland and others.

Later the navy department received a dispatch from Commander Wilson of the Panther, dated Puerto Cortes, confirming the capitulation of Tegucigalpa to Honilla, and saying that peace was assured.

Washington, April 17—Secretary Root received the following cablegram from Governor Taft, who recently went from Manila to Benguet to recover his health:

"Stood trip well. Rode horseback 35 miles to 5,000 feet altitude. Hope dysentery is cured. Great province. This is 150 miles from Manila with air bracing as Adirondacks or Marry Bay. Only pines and grass lands. Temperature, this, the hottest month in the Philippines, on my porch at 3 o'clock in the afternoon is 68. Fires are necessary night and morning."

LABOR SCARCE.

STEAMBOAT LINES, PHOSPHATE FACTORIES AND R. R. SYSTEMS HANDICAPPED.

Nashville, Tenn., April 17—The steamboat lines on the Cumberland are having great difficulty in getting constabulary, and sometimes boats are delayed for days in making trips. Two or three strikes for higher wages have occurred. The Dudley got out for the upper river by paying constabulary at the rate of \$45 per month, board and one day off each week. Phosphate factories are handicapped for lack of labor and the work on the construction of the Tennessee Central is being delayed from the same cause. An effort is to be made by the city authorities to force the negroes loafing around saloons and dance halls to either go to work or leave town.

RULING ON LOSS OF LIMBS.

COMMISSIONER OF PENSIONS GIVES OFFICIAL STATEMENT.

Washington, April 17—Commissioner of Pensions Ware has issued an order in interpreting the act of March 2, 1903, concerning cases of those who have lost limbs in the service. The ruling says:

"The said act contains the words 'or where the same is in such condition as to prevent the use of an artificial limb.' The word 'use' is not to be considered as equivalent to the word 'wear.' A person may be able to wear an artificial limb, when it would be of no use. There must be some practical utility to the use. The words of the act above quoted apply to instances where amputation is below the middle, in length, of the bone, but above the joint. In such cases, where the condition is such as to prevent the use of an artificial limb, the increased pensions shall be granted."

"Where the amputation is made at the middle, or above, there can be no use of artificial limbs. The middle point of the bone shall be determined in accordance with the decision of the office."

BIG HOTEL.

West Baden, Ind., April 17—Prominent politicians and business men are here to participate in the dedication of the magnificent new West Baden Springs Hotel. The program included speeches by noted orators, a musical concert, a banquet and a grand ball at night.

Governor Darrin will voice the sentiments of the people of Indiana and United States Senator Charles of Wisconsin, will speak for the nation at large. The last speech was to have been made by Senator Hanna, of Ohio, but he was unable to come here.

The sale of the Oadiz railroad which has been advertised for the 11th of May, 1903, will not be made.

By agreement, W. C. White, president of the road, becomes sole owner of the judgment which was rendered at the February term of circuit court in favor of himself, D. L. Grinter and Edw. R. Street to secure the payment of a bonded debt of \$10,000 with interest from 30th of May, 1902, due them by the railroad company.

A number of the stockholders have transferred and will transfer to Mr. White a part of their holdings, amounting to 300 shares, and for the present the management will continue as it has been since the road began operation.

CLOSE CALL OF FARM HOUSE.

John Worth, who resides on a farm near Lone Oak, came near losing his house Tuesday. The roof ignited from a spark and had gained considerable headway when discovered by the children who were the only ones at home. Neighbors were summoned and extinguished the flames with buckets of water procured from the well. The loss is slight.

NEW WRINKLE

DOTING FRIENDS HANDCUFF THE BRIDE AND GROOM.

Marion, Ind., April 17—Edward Campbell, a prominent young business man, and Miss Sallie Hightower, one of the leading young society women of this city, were married at the home of the bride. After the ceremony Mr. and Mrs. Campbell left for Chicago on their honeymoon trip. At the station a large number of their friends seized them as the train came in, handcuffed them together and placed them on the train. A large cowbell was fastened to the handcuffs, and every time they moved the bell gave the alarm. Printed lodgers were passed through the train announcing that "Sallie and Ed were married."

The bridal couple was compelled to ride as far as Frankfort, seventy miles chained together like prisoners. At that point they left the train, went to police headquarters and had the handcuffs cut off with a chisel.

COWARDLY ACT.

AN ARTILLERYMAN STABBED THROUGH THE BACK.

Berlin, April 17—A courtmartial has been ordered to try Ensign Hinesner of the German navy, who, on Friday, killed an artilleryman named Hartmann, for not saluting him properly, according to Hinesner's version of the affair.

Hartmann was a former schoolmate of Hinesner, and the latter avers that the artilleryman attempted gross familiarity in trying to shake hands with him after he, Hinesner, had arrested Hartmann for the informality of his salute. Then, Hinesner adds, Hartmann started to run and the ensign thrust him through the back with his sword after saying "when I draw my sword blood must flow."

STOMACH WAS OPENED.

SUCCESSFUL OPERATION ON CHILD THAT HAD SWALLOWED PIN.

New York, April 17—A successful operation has been performed on a child at the Albany hospital for the removal of a pin from the stomach. The child, a ten-month-old babe, was placed under the X ray and the pin was found to be in the throat. The surgeons forced it into the stomach, and then that organ was opened and the pin removed.

THE WEATHER.

Fair tonight with fair and warmer

for Saturday.

PLOTTERS STILL BUSY.

Governor W. S. Taylor, who was

deposed governor of Kentucky, had his

office stolen and was then driven from

the state in order to escape the unmer-

ited persecution of the machine Demo-

crats at Frankfort, has issued a state-

ment from Indianapolis relative to the

testimony of Frank Cecil in the How-

ard trial at Frankfort. Cecil's evi-

dence, it will be recalled, had no

bearing on the trial of Howard, but it

was admitted nevertheless, no doubt

because it was calculated to arouse

prejudice in the minds of the jury.

Governor Taylor's statement exposes

some of the possible motives Cecil had

for swearing as he did, and also denies

emphatically everything Cecil said

about Governor Taylor. Governor

Taylor gave out this to the press night

before last:

"The statements of Frank Cecil re-

lating to me in the Howard trial are

unmitigated perjuries. They are the

price he is paying for immunity from

a charge against himself as an accomp-

lice, as well as an indictment for ro-

bery. Every word he uttered was put

into his mouth by a fiend incarnate—

the vilest suborner of perjury in this

nation. The prosecution knows that Frank

Cecil is a perjurer. If I ever spoke to

Cecil in my life I cannot recall it. I

would not know him if I were to see

him today. His testimony illustrates

the desperation of the men who are at

the head of the diabolical plot, to

make political capital and serve polit-

ical ends in Kentucky by committing

judicial murder. The situation has

no parallel in the history of this coun-

try and scarcely in any other."

No matter what may be the politi-

cal opinion of any fair-minded man in

Kentucky, or what he may think of

Governor Taylor, he knows that there

is truth in the above statement. One

by one the "theories" and perjuries of

the Goebel prosecution have been ex-

ploded in these cases, but there are al-

ways new ones to arouse more prej-

udice and resentment in the breasts of

ignorant partisans.

First the Democratic papers "knew"

that Yousey fired the shot that killed

Goebel. Later it was surely Caleb

Powers. Then it was Howard. Then

it was somebody else, and now it is

Howard again. After the Howard

case is disposed of, it is presumed they

will find conclusive evidence when the

the nomination, and at last yielded.

It is a matter of gratification to the

Republicans of Kentucky that men of

the integrity and intelligence of Judge

Prett will make a fight to rescue the

state from the incompetency and ex-

travagance of Democratic rule, and be-

tokens an easy victory for the Repub-

lican party in November.

The indications are that the Repub-

licans stand a good chance to win this

year, and the better the men who

come out for the various offices, the

easier will be the victory. Judge

Pratt is a man of fine attainments, and

his unblemished career as a state sen-

ator, circuit judge and attorney gen-

eral has fully demonstrated his ability

as a man of fine intellectuality, un-

questioned integrity and unsurpassed

executive ability.

Glenn's Graphic, a Democratic pa-

per of Madisonville, Judge Pratt's

home, will this week say of his candi-

dacy:

"As Madisonville is the home of

Judge Pratt, and as we are one of his

warm personal friends, we feel that

we cannot do otherwise than say a

few good words for our friend and

neighbor. It matters nothing about

what may have been our political

views in the past, nothing about what

we may believe politically at present,

we propose to speak of Judge Pratt

and his candidacy as our better judg-

ment dictates.

"We have been acquainted with

Judge Pratt for nearly a quarter of a

century. We live in the same town,

we are neighbors, we are friends and

we speak what we know and believe

when we say that Judge Pratt is one

of the purest and best men we have

ever known who has been in any way

mixed up in Kentucky politics. He is

a gentleman of pleasing manners, the

same every day in the week; a citizen

whose life is above reproach; an offi-

ceholder who has always administered

his affairs with justice to all; a man

who is a man at all times and under

all circumstances; a man whom the

people are not afraid to trust anywhere

or under any circumstances."

It is noticed from the Evansville pa-

pers that the press was well represented

at the banquet tendered Commander

Vreeland of the Arkansas there a night

or two ago. The boys should feel ex-

ceedingly fortunate. Now here in Pa-

ducah the press was entirely ignored.

No newspaper representative received

an invitation to be present at the feast

of reason and flow of soul at the Pal-

mer. After working for several weeks

to have the vessel visit here the news-

papers, having done their share to-

wards getting the vessel and bringing

the hundreds of people here to see it,

were doubtless entitled to no further

notice, so it was not at all necessary

that they be asked to the banquet,

and they were forgotten. Not that

any of the press representatives would

have gone. Usually the newspaper

men are too busy to attend such

things. They sometimes go, however,

and are always glad to learn that they

are sufficiently appreciated to be in-

ited. The Evansville press should

feel grateful that it did not also get

lost in the shuffle.

General Franklin D. Baldwin, who

was in a recent interview quoted as

having expressed indifference as to the

fate of Filipino soldiers, and whose

statements attracted a great deal of at-

tention, has denied that he was quoted

correctly, and says the Filipino sol-

diers make good fighters. It seems

the safest way in these days of yellow

journalism is to refrain entirely from

talking.

DEATH SEEMED NEAR

Painters Fall From Dr. Red-

dick's Residence.

A Hook Broke and Precipitated Them

Twenty or More Feet to

the Ground.

NEITHER FATALY INJURED

John Bacon and P. C. Wells, two

house painters in the employ of Con-

tractor Charles D. Warren, fell from a

scaffold this morning about 11:10

o'clock, while working at the residence

of Dr. J. T. Reddick on South Seventh

street, and narrowly escaped fatal in-

juries. Wells received a very severe

scalp wound while Bacon is painfully

bruised over the entire body.

The men were swinging about 20

feet from the ground and were paint-

ing the last stretch on the rear of the

house when the hook broke in two

while both were on the same end. They

were thrown to the ground with

great force and Wells was rendered un-

conscious for some time.

Dr. Reddick was summoned and at-

tended them.

They were not so seriously injured

as at first thought, a thorough medical

examination showing that no bones

broke. Wells is from Lancaster, Ky.,

while Bacon is from Ohio and they

have been in Paducah only about four

weeks. The accident was witnessed

by several fellow painters who ran to

their assistance. The hooks that

broke are made of iron and are carefull-

ly made. Sometimes they pull out of

the wood but it is indeed seldom that

they break off as did happen in this

instance.

DAILY MARKET LETTER.

Wall Street, New York, April 17—

Stocks—An agreeable surprise was fur-

nished to the stock traders on the

opening this morning in the shape of

an unexpected volume of strength, sev-

eral issues scoring a gain or from 1 to

1 1/2 points over the close on the first

sales this morning. The market con-

tinued to hold its own very well until

the latter part of the session, when

heavy profit taking caused quite a re-

action from the top figures, but this

was only temporary for the closing

was strong near the top figures of the

day. Marshall Field's interview as

ATTORNEY WAS DRUNK.

Lexington, April 17—Attorneys
Hobbs and Elliott went to Frankfort
today to argue the case of Earl Whit-
ney and Claude O'Brien, the boy mur-
derers of A. B. Chinn, before the court
of appeals. The grounds for the re-
versal of the verdict in O'Brien's case
will be based on the fact that Attor-
ney Poland, who defended him, was
under the influence of liquor the great-
er part of the trial and was in no con-
dition to offer a proper defense.

Hon. Charles Reed returned from

MAKE IT OVER.

CHANGE OF DIET WILL BUILD
AN ENTIRE NEW BODY.

People can be entirely made over by
a scientific course of food and drink.
Even old, chronic diseases and heredi-
tary ailments are eliminated by the
wonderful processes of reconstruction
under modern methods of feeding.
An illustration is worth attention.
A lady writes: "I feel this letter will
exceed all reasonable bounds but how
can I be brief when I have so much to
tell. First about myself. I inherited
nervous headaches and half invalid
condition. I had to give up tea and
coffee but some months ago a friend
insisted that I start on Postum Food
Coffee and Grape Nuts breakfast food.
"I prepared the coffee myself, care-
fully according to directions on the
package, and used good cream. The
first cup seemed the most delicious
and satisfying drink I had ever tasted.
I drained it and filled it again, I was
impressed with the idea that it was
just what my starved nerves demand-
ed. So I used Postum and Grape
Nuts with good rich cream. Now for
about four weeks, I have been entirely
free from headaches and nervousness,
and am feeling unusually strong and
well. There has also been a marked
change in my appearance. I am 47
years old and my hair is very white,
but the haggard, careworn look is en-
tirely gone from my face, my cheeks
and body have filled out, the face
shows a fine color, flesh firm and
smooth, eyes clear and lips red. My
friends comment on the change and
say I look 15 years younger. They
are incredulous when I tell them that
skillful feeding on scientific food like
Grape Nuts and Postum Food Coffee
has wrought the change.
"Now as to my son 26 years old
who has been afflicted with epilepsy
from infancy. I hardly dare tell the
facts but he is here in the body to
prove them. He has had the best treat-
ment in this country all without per-
ceptible benefit. His memory was
gradually growing weaker. At the
time I started on Postum and Grape
Nuts he started also, and the change
in him has been so wonderful that I
can hardly describe it. Now he car-
ries himself erect instead of in his for-
mer careless way, his eyes are clear
and bright, and best of all his memory
is growing stronger and stronger ev-
ery day until I am fairly overcome
with astonishment. He shows a de-
cision of character quite unusual and
has lately expressed a strong desire to
study. I dare not say what hopes his
improvement has raised.
"It is perfectly evident that bodies
and brains can be rebuilt by skillful
feeding and that means Postum Food
Coffee and Grape Nuts." Name given
by Postum Co., Battle Creek, Mich.

LONG SEARCH ENDED

ALLEGED MURDERER CAUGHT
IN HOPKINSVILLE, Ky.

Hopkinsville, April 17—Will Mil-
ler, colored, is under arrest here sus-
pected of being wanted in Jackson,
Tenn., for the murder of J. M. Wilcox,
colored, eight years ago. The arrest
was made at the instigation of George
Wilcox, a brother of the murdered
man, who has been hunting for his
brother's slayer ever since the crime
was committed. Yesterday he and
Miller came from Morton's Gap on the
train and afterward took a drink to-
gether, and Wilcox says he is sure he
has landed his man.

Chief Armstrong telephoned to the
chief of police at Jackson and the de-
scription given of the murderer tallies
with Miller's appearance. The name,
too, is the same. A warrant was issued
after the arrest and the prisoner can
be held for 60 days for identification.
It is said that Wilcox was murdered
in cold blood in a saloon in Jackson,
and that the murderer escaped.

Tailor Made Cloth- ing Is the Cheapest

That sounds like a broad
statement. You may doubt
it. However 'tis true.

Real economy is to be
found in custom tailor cloth-
ing for the following reasons

The fabrics wear longer
Hold their shape always
Hold their colors.
Always look better.

Give you an air of pros-
perity and of having the cor-
rect thing.

The first cost is just a
fraction more than the other
sort.

If you will let me make
your clothing you will nev-
er wear "the other sort"

A FINE ATTRACTION.

CARNIVAL ASSOCIATION NOW
NEGOTIATING FOR A "LOUP
THE LOUP."

The Paducah Carnival association
is now negotiating with the Ferrari
Brothers company relative to securing
an extra attraction for the carnival
next month, with good prospects of
success. The feature is a "loup the
loup" act, in which a man descends a
plume 100 feet high, and goes around
the loup. It is said to be one of the
most thrilling acts performed any-
where.

One thousand circulars are being
sent out to merchants doing busi-
ness in Paducah for donations for
the country store, which will be lo-
cated at Fourth and Broadway. Mr. G.
R. Davis is in charge of it, and is do-
ing good work. There will be a num-
ber of capital prizes, such as buggies,
etc., that will be bought and given
away.

The transportation committee of
which Mr. George Dains is a mem-
ber, has secured a rate of one fare for
the round trip for entire carnival
week.

The Ferrari Carnival Co., which is
to be here May 11 to 16, is said to be
the cleverest and largest aggregation
of its kind in the world, and will have
sixteen big attractions, all at a very
small price of admission. One of the
cleverest features of the whole com-
pany is the Royal Lilliputian Court,
in which a performance is given by
Lilliputians. It is comical to see the
tiny little fellows go through their
performances and to note the ease and
grace with which they say their lines,
sing their songs and do their dances.
It is a matter of wonder where the
Ferraris ever got hold of so many
midgets. It is not considered unusual
to see one or two of them, but when
you see a whole troupe of little per-
sons fully developed and not much
larger than a 3 year old child perform-
ing a series of difficult songs and
dances and clever comedy work one
begins to wonder at the versatility of
the Ferraris and wonder where they
managed to get them all together and
indeed it has taken years of gathering
to do it. They pick up one here and
another there, and it is said if Col.
Ferrari hears of a dwarf in any part of
the globe he immediately journeys
hither and if there is any possibility
of histrionic ability in him he will
have it developed at once.

The Royal Lilliputian Court is a
troupe of considerable ability and size
and is said to be the cleverest on the
road. Their performance is said to
merit a much larger price of admis-
sion than is charged. It is said that
next season the Ferraris are to take
them on the road in a new play, writ-
ten by Francis Ferrari which is said to
be of considerable merit. It is hoped
that everybody will give the little ones
a cordial reception and will turn out.
Already people in the small town-
near have been inquiring about ex-
cursions, etc., so that there is no doubt
but what this carnival will be a huge
success and that we will be able to re-
peat it every year.

METHODIST MERGER

NORTHERN CHURCH TO UNITE PUBLISHING PLANTS.

Cincinnati, April 17—About 800,000 supplements have been issued with all the Methodist weeklies published in different parts of the country for an informal referendum on the proposition for a merger of the Methodist book concerns as outlined by the Associated Press last Monday night. It is proposed not only to have the publishing houses in New York, Cincinnati and Chicago merged, but also only one general agent instead of four, as at present. If the merger is made there will be a contest at the coming general conference in Los Angeles for the location of the big publishing house as well as for the general agency and other positions involved, including the editors. The principal depositaries, in any event, will remain at New York, Chicago, Cincinnati, Boston, San Francisco, Pittsburgh, Detroit and Kansas City.

OPERATION ON LOLITA ARMOUR A SUCCESS.

Chicago, April 17—Dr. Adolph Lorenz, the Austrian specialist, arrived in Chicago yesterday for the purpose of removing the cast from the leg of Lolita Armour, the young daughter of J. Ogden Armour, upon whom an operation for congenital dislocation of the hip was performed last October. Upon removing the cast the limb was found to be in perfect condition, and the patient was able to walk around the house without any difficulty.

"The operation was a complete success," said Dr. Lorenz, "but I shall be in constant attendance upon the little one for three or four weeks before I can be certain of a positive cure."

After his sojourn in Chicago Dr. Lorenz expects to make a short Western tour.

The vacancy in the second lieutenant resulting from his resignation was filled by the election of Mr. Jesse Moss, the lawyer.

MUCH BUILDING

WORK IS PROGRESSING ON MANY OF THE BIG STRUCTURES.

The pretty weather of today has revived work in building circles. It is probable that next week will see a number of new houses started, and some of those now under way completed.

Work is progressing on the public library at Ninth and Broadway, and on the fraternity building on Broadway between Fifth and Sixth. There seems to be all the work that could be wished.

BACKED OUT.

THE COUPLE REFUSED TO WED ON THE STAGE.

The couple that had agreed to have their marriage ceremony performed on the stage of the Kentucky theater last night backed out at the last minute, disappointing the audience. The management of the Perach company, however, gave their names and residence in order to show that they had agreed to accept the offer, and there was no desire on part of the management to deceive the public. The offer is still good, and it is believed that Saturday some one else will be found.

FROST ON THE MOON.

HARVARD PROFESSOR CLAIMS TO HAVE MADE A NEW LUNAR DISCOVERY.

Chicago, April 17—A dispatch to the Chronicle from Cambridge, Mass., says:

Prof. Pickering, of the Harvard observatory, thinks he has discovered unmistakable evidence of hoar frost on the moon, strengthening his previous theory in that direction. He is now busy working out his calculation made during the recent eclipse of

the moon and will make the recent eclipse of the moon and will make known the results in a few days.

During the total eclipse last fall, Prof. Pickering found that the dark spot around the Linné crater had greatly increased during the darkness away from the sun's heat, and that it was hoar frost, he claimed, was shown by its diminution as the light increased. If the spot were stone, he argues, no light would have been reflected while the earth's shadow was upon the moon. Recent measurements tend to confirm this belief.

\$3 50 SHOES

Just lots of people are today wearing the popular price shoes. They realize they are as good as shoes for which they used to pay \$5 and \$6.

Manufacturers, with new machinery and new methods, have learned how to make shoes cheaper and the people reap the benefit.

We sell more men's \$3 50 shoes than any house in Paducah. We do so, for one reason, because we have the best \$3 50 shoes made, the Douglass shoes and our own made to order shoe.

We guarantee the best shoe values in Paducah. We know what a shoe is worth and what it should sell for and we pay no more than they are worth nor ask no more than they should sell for.

Our constantly increasing business attests these facts.

WHEN KNIGHTHOOD WAS IN FLOWER

Or, The Love Story of Charles Brandon and Mary Tudor, the King's Sister, and Happening in the Reign of His August Majesty King Henry the Eighth

Rawritten and Randered into Modern English from Sir Edwin Caskoden's Memoir

By EDWIN CASKODEN [CHARLES MAJOR]

Copyright, 1899 and 1901, by the Bowen-Merrill Company

He had not been there long when in came Mary. I cannot say whether she knew Brandon was there or not, but she was there and he was there, which is the only thing to the point, and, finding him, she stepped into the alcove before he was aware of her presence.

Brandon was on his feet in an instant and with a low bow was backing himself out most deferentially to leave her in sole possession, if she wished to rest.

"Master Brandon, you need not go. I will not hurt you. Besides, if this place is not large enough for us both, I will go. I would not disturb you." She spoke with a treasured voice and a quick, mischievous glance, and started to move backward out of the alcove.

"Lady Mary, how can you speak so? You know you must know—oh, I beg you!" But she interrupted him by taking his arm and drawing him to a seat beside her on the cushion. She could have drawn down the Colossus of Rhodes with the look she gave Brandon, so full was it of command, entreaty and promise.

"That's it. I don't know, but I want to know, and I want you to sit here beside me and tell me. I am going to be reconciled with you despite the way you treated me when last we met. I am going to be friends with you whether you will or not. Now what do you say to that, sir?" She spoke with a fluttering little laugh of uneasy non-assurance, which showed that her heart was not nearly so confident as so bold as her words would make believe. Poor Brandon, usually so ready, had nothing "to say to that," but sat in helpless silence.

Was this the sum total of all his wise determinations made at the cost of so much pain and effort? Was this the answer to all his prayer, "Lead me not into temptation?" He had done his part, for he had done all he could. Heaven had not helped him, since here was temptation thrust upon him when least expected and when the way was so narrow he could not escape, but must meet it face to face.

Mary soon recovered her self possession—women are better skilled in this art than men—and continued:

"I am not intending to say one word about your treatment of me that day over in the forest, although it was very bad and you have acted abominably ever since. Now is not that kind in me?" And she softly laughed as she peeped up at the poor fellow from beneath those sweeping lashes, with the premeditated purpose of tantalizing him, I suppose. She was beginning to know her power over him, and it was never greater than at this moment. Her beauty had its sweetest quality, for the princess was sunk and the woman was dominant, with flushed face and flashing eyes that caught a double luster from the glowing love that made her heart beat so fast.

With the mood that was upon her I wonder Brandon maintained his self restraint even for a moment. He felt that his only hope lay in silence, so he sat beside her and said nothing. He told me long afterward that while sitting there in the intervals between her speech, the oddest, wildest thoughts ran through his brain. He wondered how he could escape. He thought of the window and that possibly he might break away through it, and then he thought of feigning illness, and a hundred other absurd schemes, but they all came to nothing, and he sat there to let events take their own course, as they seemed determined to do in spite of him.

After a short silence Mary continued half banteringly: "Answer me, sir! I will have no more of this. You shall treat me at least with the courtesy you would show a bourgeois girl."

"Oh, that you were only a bourgeois daughter!"

"Yes, I know all that; but I am not. It can't be helped, and you shall answer me."

"There is no answer, dear lady. I beg you—oh, do you not see?"

"Yes, yes; but answer my question. Am I not kind, more than you deserve?"

"Indeed, yes; a thousand times. You have always been so kind, so gracious and so condescending to me that I can only thank you, thank you, thank you," answered Brandon almost shyly, not daring to lift his eyes to hers.

Mary saw the manner quickly enough—what woman ever missed it, much less so keen eyed a girl as she—and it gave her confidence and brought back the easy banter of her old time manner.

"How modest we have become! Where is the boldness of which we used to have so much? Kind? Have I always been so? How about the first time I met you? Was I kind then? And as to condescension, don't—don't use that word between us."

"No," returned Brandon, who in his turn was recovering himself; "no, I can't say that you were very kind at first. How you did fly out at me and surprise me! It was so unexpected it almost took me off my feet." And they both laughed in remembering the scene of their first meeting. "No, I can't say your kindness showed itself very strongly in that first interview, but it was there nevertheless, and when Lady Jane led me back your real na-

ture asserted itself, as it always does, and you were kind to me—kind as only you can be."

That was getting very near to the sentimental—dangerously near, he thought, and he said to himself, "If this does not end quickly, I shall have to escape."

"You are easily satisfied if you call that good," laughingly returned Mary. "I can be ever so much better than that if I try."

"Let me see you try," said Brandon. "Why, I'm trying now," answered Mary, with a distracting little pout. "Don't you know genuine out and out goodness when you see it? I'm doing my very best now. Can't you tell?"

"Yes, I think I recognize it, but—but—no bad again."

"No, I won't! I will not be bad even to please you. I have determined not to be bad, and I will not—not even to be good. This," placing her hand over her heart, "is just full of 'good' today." And her lips parted as she laughed at her own pleasantry.

"I am afraid you had better be bad I give you fair warning," said Brandon huskily. He felt her eyes upon him all the time, and his strength and good resolves were cooling out like wine from an ill coopered cask. After a short silence Mary continued, regardless of the warning:

"But the position is reversed with us. At first I was unkind to you, and you were kind to me, but now I am kind to you, and you are unkind to me."

"I can come back at you with your own words," responded Brandon. "You don't know when I am kind to you. I should be kinder, to myself at least, were I to leave you and take myself to the other side of the world."

"Oh, that is one thing I wanted to ask you about. Jane tells me you are going to New Spain."

She was anxious to know, but asked the question partly to turn the conversation, which was fast becoming perilous. As a girl she loved Brandon and knew it only too well, but she knew also that she was a princess, standing next to the throne of the greatest kingdom on earth—in fact, at that time the heir apparent, Henry having no children, for the people would not have the Scotch king's imp, and the possibility of such a thing as a union with Brandon had never entered her head, however passionate her feelings toward him. It was not to be thought of between people so far apart as they.

Brandon answered her question: "I do not know about going. I think I shall. I have volunteered with a ship that sails in two or three weeks from Bristol, and I suppose I shall go."

"Oh, no! Do you really mean it?" It gave her a pang to hear that he was actually going, and her love pulsed higher, but she also felt a sense of relief, somewhat as a conscientious housebreaker might feel upon finding the door securely locked against him. It would take away a temptation which she could not resist and yet dared not yield to much longer.

"I think there is no doubt that I mean it," replied Brandon. "I should like to remain in England until I can save money enough out of the king's allowance to pay the debt against my father's estate, so that I may be able to go away and feel that my brother and sisters are secure in their home—my brother is not strong—but I know it is better for me to go now, and I hope to find the money out there. I could have paid it with what I lost to Judson before I discovered him cheating."

This was the first time he had ever alluded to the debt, and the thought of it in Mary's mind, added a faint touch of fear to her feeling toward him.

She looked up with a light in her eyes and asked: "What is the debt? How

"Heaven help me!" he cried.

much? Let me give you the money. I have so much more than I need. Let me pay it. Please tell me how much it is, and I will hand it to you. You can come to my rooms and get it, or I will send it to you. Now tell me that I may. Quickly!" And she was alive with enthusiastic interest.

Dr. Miles' Heart Cure
Cured Her.

"Five years ago my wife was a constant sufferer from weak heart and fainting spells that would cause her heart to flutter violently, leaving her in a very weak condition. She was extremely nervous, had little appetite, could not sleep well and was unable to do her household duties. She began the use of Dr. Miles' New Heart Cure, and after the first bottle felt great relief. She has now used five bottles and I can say she is cured and enjoying the best of health. She goes out a great deal, does all her own work and she thinks all the credit belongs to Dr. Miles' Heart Cure, and we take pleasure in giving you this testimonial hoping it will be of benefit to others. I will add that I used the Restorative Nervine this spring as a spring tonic and it made a new man of me."—S. C. STAPLETON, Greenville, Texas.

The heart when exhausted relaxes just as does any weakened or exhausted muscle, causing the circulation to wholly or partially cease, when the person becomes weak, or perhaps faint. Should the relaxation continue for a minute or two sudden death is the consequence. If you are weak, if it flutters, palpitates, tires easily, you should immediately begin the use of Dr. Miles' Heart Cure. This great blood and heart tonic has been uniformly successful in the treatment of heart disease. It enriches the blood, strengthens the heart nerves, regulates the pulse and improves the circulation.

"Lightness of a Dorothy Dodd"

On the Scales

A great many interesting facts may be discovered with a pair of scales, but it is doubtful if any single fact will be more interesting and valuable to the average woman than the weight of her shoes.

For this tells her the number of ounces that must be lifted thousands of times each day, and a little calculation will show that she lifts tons of shoe leather a day—no small labor in itself.

The "Dorothy Dodd" shoe saves the lifting of more than one and one-half tons every day. A pair of "Dorothy Dodd" shoes are several ounces lighter than ordinary shoes. The feet are just so much more comfortable, and you are so much less tired. Put a pair to the test!

The Mississippi and its tributaries are navigable for 35,000 miles. The rivers of Europe furnish navigation for only half as many miles and few of them are connected.

Three tugs and two derrick boats from Louisville are at work five miles below recovering the cargoes of Cloverport coal and iron which were lost near Skillman, Ky., several weeks ago by the steamer J. B. Fieley.

River men are talking of a quick trip made by the Woolfolk, which came in a day or two from Ashland City, Tenn., with 187,000 feet of lumber. She went 187 miles in one day, pushing her tow. Captain Tom Murray is now mate on the Woolfolk.

Mr. Charles I. Eccles, the popular clerk in the Anderson hotel at Dickson, Tenn., was third pantryman on the once famous steamer General Lytle, and quit her two weeks before she blew up near Bethlehem, Ind., while she was racing the People's line steamer St. Charles. He and Captain "Blomph" Goldman, of the Lytle, who was killed, were residents of Jeffersonville. At that time "a war" was on, the General Lytle and General Snell were the mail line steamers and the St. Charles and St. Nicholas were the People's Cincinnati packets. The fare to Cincinnati and return, including meals and berth, was \$1, and the fight was the longest and hottest one ever known between this city and Cincinnati. Wash Berrow, in charge of the tower at Goss avenue for the L. and N. railroad, was one of her clerks, and one of the few men living who ran on the Lytle in her palmiest days besides Mr. Eccles.

IN THE COURTS

Forgery Case About Finished in Circuit Court.

Only a Few Misdemeanors in Judge Sanders' Court Today.

CIRCUIT COURT.

The case against Dr. Elmer Davis of the county for forgery, will possibly go to the jury this afternoon late. The evidence was completed this morning and this afternoon arguments are in progress, with a probability of a verdict before night.

Little else has been done today. Court has made slow progress during the past two or three days, and there is only one more week of it after tomorrow.

W. Y. Noble has filed suit against Mason Stanley for \$23.32 claimed to be due on street improvement assessment.

The motion of the defendant to set aside the judgment in the case of M. Livingston against J. R. Gray was overruled.

POLICE COURT.

There was little business this morning in Judge Sanders' court. O. B. Bailey was charged with being drunk. He was arrested by Officers Terrell and Friant, but as he was unfortunate and had been in a railroad wreck he had no money to pay for his release.

The following suits have been filed in quarterly court: P. H. Stewart against Alonzo Jones, suit to secure a claim of \$25 for professional services. H. T. Rivers against Alonzo Jones, suit to secure a claim of \$50 for professional services.

A breach of ordinance charge against George Jones was left open.

COUNTY COURT.

Martha R. Pogo deeds to A. S. Whitlock, for \$195, property in the county.

J. A. Headerson deeds to Mollie E. Champion, for \$700, property in the county.

Jake Biederman deeds to Will Reynolds, for \$375, property in Rowland town.

Low Colonist Rates to the Northwest and California

From February 15th until April 30th, the Burlington makes greatly reduced one-way rates for settlers going to California, Montana, Big Horn Basin, Idaho, Washington, Oregon, Puget Sound Country and British Columbia. Generally speaking the reduction is from 25 to 40 percent.

The Way To Go

Take the Burlington trains at St. Louis, Kansas City, St. Joseph, Omaha, Denver or Chicago. With its close connections, the Great Northern and Northern Pacific roads, and with its through train service the Burlington offers more to the settler than any other line or combination of lines into the Northwest.

The "Burlington-Northern Pacific Express" is the great daily train with through chair cars, coaches and through tourist sleepers. This is the only through train into the Northwest jointly with the Northern Pacific Road.

To California

Join the Burlington's personally conducted California excursions in through tourist sleepers which are run on frequent dates each week via Denver, Scenic Colorado and Salt Lake City.

Main Traveled Road

One makes no mistake in calling for tickets over the Burlington with its 5000 miles of main traveled trunk lines leading practically to all the great cities and diverging points of the West.

Describe to us your proposed trip and let us advise you the least cost and send you free reading matter.
